Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/840,160	Applicant(s) BLECKER ET AL.	
	Examiner David M. Fenstermacher	Art Unit 3682	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 06 May 2004.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Information Disclosure Statement

2. The IDS, filed 11/23/05, has been considered in full.

Drawings

3. The drawings, as originally filed, are acceptable as formal.

Claim Objections

4. Claims 1 and 3 are objected to because of the following informalities: In claim 1, line 7, "oil return" should be – an oil return--. In claim 3, "oil reservoir" should be – annular oil reservoir—to remain consistent with the previously recited claim language. Appropriate correction is required.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 1-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, the recitation that the oil pump having two spindles with oppositely extending feeding channels is indefinite. It is not clear whether the pump has the feeding channels or the spindles provide for the feeding channels.

Claim 1, line 8, "the bearing seat" lacks antecedent basis.

Claim 4 is indefinite since the seal would be placed between the shaft and housing in the clearance.

Claim Rejections - 35 USC § 102

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

8. Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by FR 982490 (cited by applicant).

FR 892490 shows the claimed subject matter where a bearing (e.g. 6) has a reservoir (21) and a pump (11); the pump circulates oil to the top of the bearing and the oil has two passages (see figure 3 where there are two passages back to the reservoir from (26)); the pump being supported at either end and therefore meets the language for two spindles, there being a seal at either end of the housing (1).

Claim Rejections - 35 USC § 102

9. Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Erdmannsdoerfer et al. (5,693,217).

Erdmannsdoerfer et al. shows the claimed invention where a bearing to be lubricated is located in the centrifuge (6) and there being a pump (P) which is supported at either end and therefore has two spindles and two return routs for the oil, a primary and a bypass stream, the seal in the centrifuge being inherent since it is a pressure (pump(P)) lubricated system.

Conclusion

10. The following are suggested formats for either a Certificate of Mailing or Certificate of Transmission under 37 CFR 1.8(a). The certification may be included with all correspondence concerning this application or proceeding to establish a date of mailing or transmission under 37 CFR 1.8(a). Proper use of this procedure will result in such communication being considered as timely if the established date is within the required period for reply. The Certificate should be signed by the individual actually depositing or transmitting the correspondence or by an individual who, upon information and belief, expects the correspondence to be mailed or transmitted in the normal course of business by another no later than the date indicated.
